Logic Instrument's consolidated annual turnover is up 20% with a strong last quarter (+33%). The growth in the fiscal year 2015 is mainly due to the following factors:

- A significant breakthrough with the Fieldbook E1 and I1 tablets in industrial
- The first contracts with semi-rugged and corporate devices like equipment for Hilton Hotels

Prospects

The strategy of Logic Instrument is innovation and further development in historical segments. Three main areas to be put forward in 2016:

- The development of the recently launched new products (K80, K10 and F53) that provide broad functional coverage (performance and ruggedness) with attractive pricing which broadens the scope of use and business prospects
- Focus on security: The first Sikur GranitePhones, on which the Group has good prospects for development in 2016, will be shipped in mid-January
- The follow up and development of the traditional "fully rugged business" with many projects worldwide already in progress related to the Fieldbook E1 and Fieldbook I1

Financial calendar

The results of fiscal year 2015 will be released March 25, 2016 after stock market close.
