LOGIC INSTRUMENT recorded € 8.4 M in revenue at the end of September 2018

Consolidated revenue (in €M) not audited	As of 2018/09/30	As of 2017/09/30	Variation	Variation as a %
LOGIC INSTRUMENT	8.4	9.3	-0.9	-11%

The consolidated turnover of LOGIC INSTRUMENT at the end of September 2018 amounted to € 8.4 million compared with € 9.3 million the previous year.

This period was marked by the continued deliveries of tablets to La Poste (Ardoiz) and the supply of products for customers of the industry and the defense sectors. Projects are being developed for the last quarter in the defense and home automation markets.

Perspectives

LOGIC INSTRUMENT's strategy is based on the continuous development of the past three years and the structuring of value for key accounts:

- LOGIC INSTRUMENT is now able to design custom products with new technologies. After developing a tablet for seniors for La Poste and a remote support console for Groupama and Crédit Mutuel, new demands are being made around NFC technology and also in home automation management.
- LOGIC INSTRUMENT also acts as a design office and integrator for large accounts by customizing operating systems and offering fleet management and different levels of configuration.

The Group also announced the launch of its Gate Pro. This control panel, which activates artificial intelligence, provides a complete toolchain for the development of intelligent, interactive and private systems. It includes voice recognition and control features that optimize workflows. It embeds advanced technologies for extended man to machine communications. It will be available from December 2018.

The skills of the Group and its various projects make it possible to hope for a revenue growth in a structure now profitable in 2018.

About LOGIC INSTRUMENT:

Founded in 1987, LOGIC INSTRUMENT develops and markets tablets, smartphones and laptops for businesses and hostile environments, under the operating systems Google Android and Microsoft Windows. LOGIC INSTRUMENT operates on all continents via its various subsidiaries. LOGIC INSTRUMENT is listed on Alternext Paris (ALOG).
