Events of the period

LOGIC INSTRUMENT continued its growth momentum in the third quarter of 2017, confirming the trend since the beginning of the year. In particular, the Group completed a first important operation with the National Forestry Board (ONF) and continued deliveries of tablets for La Poste (Ardoiz).

LOGIC INSTRUMENT is also pursuing the development of its range with the launch of the K116 Fieldbook, a hardened tablet with detachable keyboard (hybrid), extremely powerful and designed for the most extreme environments such as defense, construction and automotive.

The range of LOGIC INSTRUMENT products, PCs, tablets, smartphones and connected objects (IoT) from ultra-hardened to semi-hardened or custom-made solutions is therefore adapted to all professional uses and is offered by the most demanding integrators. In the Defense division, LOGIC INSTRUMENT also integrates TEMPEST products as well as "Restricted Distribution" (DR) data security solutions.

Outlook

"We confirm that 2017 promises strong, profitable growth and that new partnerships and important projects are under discussion for the end of the year or the beginning of 2018," said Loic Poirier, Chairman and CEO of LOGIC INSTRUMENT.
