12,2" VERSATILE 2-IN-1 RUGGED TABLET

BIG SCREEN WITH FULL HD RESOLUTION
The 12,2-inch display with 1920x1200 pixels displays all the details even of complex applications, GIS maps or big spreadsheets. The IPS technology allows a wide viewing angle with high contrast and good color reproduction. At the same time, the screen is protected from scratches and drops by Corning's Gorilla® Glass.

VERSATILE 2-IN-1 RUGGED TABLET
Data input can be made either with the fingers, even on a wet surface or with gloves on, as well as with the attachable keyboard.
